

Dear Parents of Rising Second Graders,

I am looking forward to teaching your child in the coming school year. I hope that you have a fun and safe summer.

Second grade is a year of practicing reading and math skills to get your child on a firm foundation for the rest of their lives. Third grade marks a switch from learning to read to reading to learn, and it is essential to grow strong in the skills needed for math and reading proficiency. Therefore, I do encourage that your child spend some time each week working on math and reading. In this folder you will find:

- ❖ Summer reading bingo- please read any book or magazine that matches the bingo board. The more spaces that are covered, the more prizes they will be able to choose from.
- ❖ X-tra math flyers- please consider logging into x-tra math at least twice a week to keep up math fact fluency. The website is FREE; only the app costs money.
- ❖ Math worksheets- these cover a variety of topics and are helpful in touching upon many areas of mathematics.
- ❖ SuperKids workbook- please work through this and have it finished by the end of the summer; it is ten lessons that can be worked through at your pace.

Thank you! I don't want this to be overwhelming, but I do want it to be sufficient to keep their minds well oiled over the summer. Please email if you have questions or concerns: [srgracedominic@stmarysoakridge.org](mailto:srgracedominic@stmarysoakridge.org)

God bless!

Sister Grace Dominic
